

Move2Cloud

CONSULTING FIRM

Specialised in new technologies
Data, Cloud & DevOps

ABOUT MOVE2CLOUD

Move2Cloud is an expert company in Data, Cloud and DevOps.

Move2Cloud is a consulting company specialised in Cloud, Data and DevOps, bringing together experts dedicated to supporting businesses in their move to cloud solutions.

As a **Young Innovative Company (JEI)**, Move2Cloud provides strategic and technical support to optimise its clients' IT infrastructure.

Its experienced team shares its know-how in cloud, strategy, deployment and operations, offering solutions tailored to the specific needs of each business.

ABOUT MOVE2CLOUD

The JEI logo is presented as a graphic consisting of three overlapping squares. The top square is a light orange color. The middle square is a darker orange and contains the text 'jeune entreprise innovante' in white. The bottom square is red and contains the text 'JEI' in large, bold, orange letters. The text 'jeune entreprise innovante' is stacked vertically below 'JEI'.

JEI
jeune
entreprise
innovante

In 2025, Move2Cloud was awarded the “Jeune Entreprise Innovante” (Young Innovative Company) label.

At Move2Cloud, innovation is not a buzzword: it is a culture. From the very start, we have placed [research and development](#) at the heart of our strategy, with a clear goal: to design intelligent, sovereign and sustainable cloud solutions, fit for tomorrow’s challenges.

Our work on automating cloud migrations, optimising hybrid infrastructures and reducing the digital carbon footprint reflects this constant commitment. This is why we were awarded the Jeune Entreprise Innovante (JEI, Young Innovative Company) label: an official recognition of our R&D efforts.

OUR PLATFORMS

Two platforms built and run by Move2Cloud, born from our R&D.

FinOps Move2Cloud

Cloud cost management

Understand your cloud spending and find your next savings.

- Six cloud providers, sovereign and American
- End-of-month forecast and budget alerts
- Costed savings recommendations
- Read-only access, encrypted credentials

From €19 excl. tax a month, after a free 14-day trial

OUR COMPANY CULTURE

Our people share common values, with one goal: moving forward together

Closeness

We stay close to our clients and our people: listening, regular dialogue and lasting relationships of trust, so that we move forward together whatever the situation.

Transparency

Choices explained, costs in plain view and commitments kept: a transparency that builds trust with our clients, our people and our candidates.

Excellence

High quality standards, commitments kept and a taste for challenge: we aim for the best result on every engagement, and keep learning to get there.

Diversity

Varied profiles and backgrounds that complement one another: everyone brings their own way of seeing, and this diversity makes our teams stronger.

Enjoyment

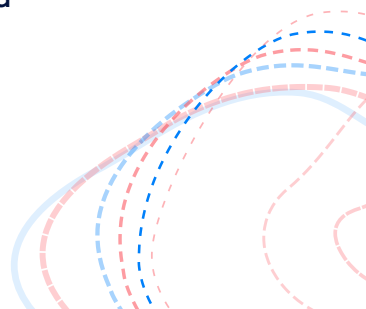

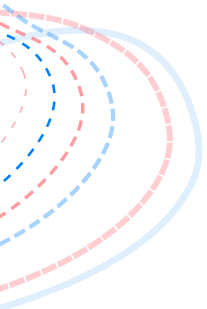

Enjoying working together is the key to our success: a team that thrives delivers projects it is proud of.

OUR PHILOSOPHY

What sets us apart:
Enjoying our work is the key to our success! We invest all the time needed
to complete each of our assignments.

Our goal is to move forward together!

AREAS OF EXPERTISE

We are involved in every phase of the project, from defining the need, planning and implementation through to go-live. We then keep monitoring it and set up the right probes and alerts to ensure its high availability.

OUR PRACTICES

Cloud & DevOps

Data Science

Application engineering

CLOUD & DEVOPS PRACTICE

Our consultants are:

- IT project managers
- Cloud & DevOps engineers
- Architects and technical experts
- Systems, network and security engineers
- Operations and production analysts
 - Middleware specialists

Project management	Cloud Migration	Containers & Orchestration
Infrastructure provisioning	CI/CD	Monitoring

CLOUD & DEVOPS PRACTICE

We put our experts in these technologies at your service:

Project management:
SAFe, Kanban, ITIL,
Scrum...

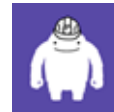

Cloud providers:
AWS, Azure,
OVHcloud,
Scaleway...

Containers &
Orchestration:
Docker, Mirantis,
Helm, Kubernetes, ...

IaC:
Terraform, Terragrunt,
AWS Cloudformation,
Ansible...

CI/CD:
Jenkins, GitLab, Azure
DevOps, Argo CD...

Monitoring:
Datadog, Pagerduty,
Sysdig, SignalFX...

DATA SCIENCE PRACTICE

Our consultants are:

- Data project managers
- Data analysts / Data scientists
- Business Intelligence consultants
- MSBI engineers (Power BI, SSRS, SSIS, SSAS)
 - Python, R and SQL developers
 - Database experts

MSBI	Microsoft Power BI	Python, R
Data governance	SQL Server	DAX

DATA SCIENCE PRACTICE

We put our experts in these technologies at your service:

Data visualisation:
Power BI, Tableau,
Zoho, Datawrapper

Microsoft SQL Server
suite: SSIS, SSRS,
SSAS, Excel, Power
Apps, DAX

Machine Learning:
TensorFlow, Knime,
Jupyter, PyTorch

Languages: Python, R,
SQL, RapidMiner

Data Engineering:
Neo4j, SPARQL,
Airflow, Kafka

Databases:
PostgreSQL,
Cassandra, Athena,
BigQuery

Datawrapper

APPLICATION ENGINEERING PRACTICE

Our consultants are:

- Design engineers
- Frontend and/or backend developers
- Architects and technical experts
 - Testers / quality analysts
 - Web integrators, DBAs

Development	Testing	API enablement
Database management	Big Data	SAP

APPLICATION ENGINEERING PRACTICE

We put our experts in these technologies at your service:

Backend
development:
C#, Java, Python,
PHP...

Frontend
development:
Angular, NodeJS,
ReactJS, Vue.js...

API enablement:
REST APIs, Serverless,
Google Apigee,
Swagger...

Databases:
SQL Server,
MongoDB, HBase,
Oracle...

Big Data:
Spark, Azure Event
Hubs, AWS EMR, Azure
Synapse Analytics...

Testing:
Java Mockito,
Gatling, Selenium,
Cucumber...

OUR SECTORS

We support our clients in delivering their projects, in particular in adopting Agile methodologies.

BANKING, FINANCE & INSURANCE

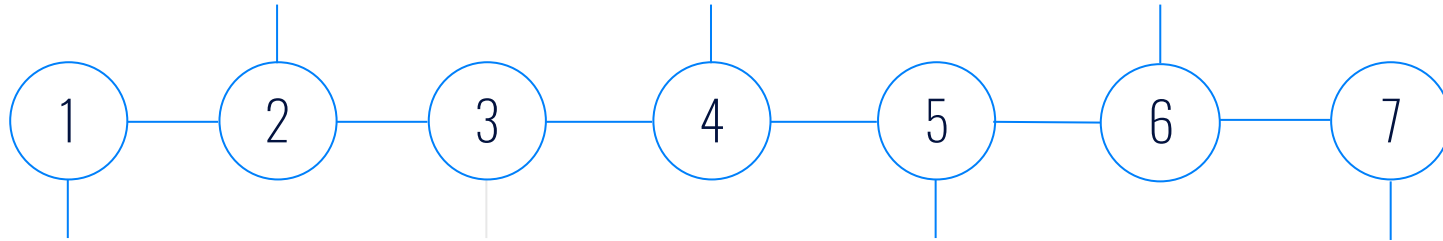

Online banking, stock market sites, trading rooms, mobile applications and middle/back office.

WEB AGENCIES

Showcase website development, website hosting, managed services...
